

HABANOLIDE

SALVATORE FERRAGAMO POUR HOMME (1999)

SWEET MUSK

Habanolide is a sweet musk that is used widely, blending well with other musks. One of the first perfumes to incorporate this was Bulgari for Men (Bulgari, 1995) and was used at about 10%.

Also used at 16% in Salvatore Ferragamo pour Homme (S. Ferragamo, 1999)
Used at 17% in Hypnotic Poison (C. Dior 1998)

Note description

**** sweet, musky, waxy ****

Demonstration formula (drops)

Galaxolide 50% (musk) 10

Habanolide - 3
